

Street Disc and Drum Brake Kits

Ford Rear Disc Brake Kit with Parking Brake- Street Application (Requires Late Big Ford Housing End)

B2706WC pictured above

This Ford rear brake kit is an excellent value and ideal for street car enthusiasts.

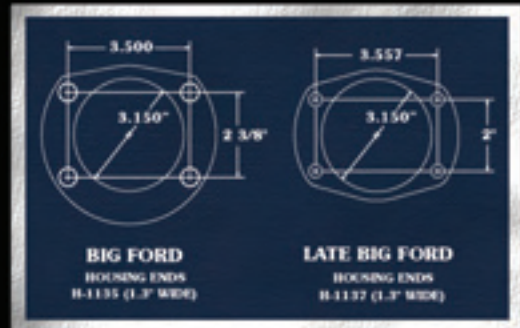

The kit includes the following: 11" disc rotors, calipers (including parking brake), mounting brackets and attaching hardware. The rotors have the popular 5-hole, 4.5" bolt circle (optional 4.75" bolt circle- \$15⁰⁰). Caliper mounting brackets fit the Late Big Ford housing ends (Strange # H-1137). This kit is designed for vehicle installations with a 2.50" brake gap ("F" dimension), "A" dim.= 2.795", axle flange OD 6.2450" and a 1.00" access hole on a 4.50" b.c. is required.

NOTE: hoses, tubes, retainer plates, parking cables and wheels are not included in this kit.

B2706WC Ford rear disc brake kit (fits Strange housing end number H1137). Standard bolt circle is 5 on 4.50" (opened for 1/2" studs). Kits can be drilled for an additional bolt circle or have the holes machined to accept 5/8" studs- add \$15⁰⁰ (kit)... **\$399⁰⁰**

Drum Brake Kits

B1606 11" drum brake kit (fits Strange housing number H1137). Brake gap equals 2.50". Dimension A= 2.780". Standard bolt circle is 5 on 4.50" (opened for 1/2" studs). Kits can be drilled for an additional bolt circle or have the holes machined to accept 5/8" studs- add \$15⁰⁰ (kit).. **\$329⁰⁰**
