

Strange Sportsman 11" Rear Carbon Kits, 11.50 Carbon Kits & Carbon Replacement Components

The 11" rear Sportsman Carbon (carbon/carbon) brake kits feature the same carbon rotors as our Pro Carbon brake kits. The Sportsman kit surpasses the performance and wearing characteristics of our competitors higher priced, "top of the line" brake kits, while still maintaining an attractive price.

- **Complete kit weighs 15.1 lbs.**
- **11" OD rotor mounted on hat- weighs only 3.10 lbs. for less rotating weight**
- **Improved braking with maximum weight reduction**
- **Eliminates rotor warpage & drag, compared to steel and cast iron rotors**
- **Directional calipers with premium heat shields. Strange includes .024" & .060" thick heat shields, which can be used as spacers- maximizing pad life and ensuring the caliper pistons do not over extend**

Strange Pro Race Rear Carbon Kits include the following:

Directional calipers, aluminum caliper mounts, hardware, heat shields, 11" carbon rotors and carbon brake pads.

- *C17004WC Fits Olds ends (4.75"b.c./2.8325" brake gap) **(kit)** \$2,289⁰⁰
- *C17084WC Fits Early B.F. ends (4.75"b.c./2.335" brake gap) **(kit)** \$2,289⁰⁰
- *C17104WC Fits Symmetrical ends (4.75"bc/2.8325" brake gap) **(kit)** \$2,289⁰⁰
- *C17104DBWC Fits Strange Symmetrical (H1136) ends (4.75"bc/2.8325" brake gap) **(kit)** \$2,289⁰⁰
- C1200WC Strange floater kit (call to verify) (5.50" b.c.) **(kit)** \$2,995⁰⁰
- * For 5" b.c. - replace the 4 with a 5 in the part number

Strange 11.50" Rear Carbon Brake Kits

Strange 11.50" are designed to fit all Strange top loader Live Axle Designs- 9"/9.50", 10.50" and 12". The 11.50" rotor is used in order to provide the largest braking surface practically possible. Funny cars and T/F Dragsters have an enormous amount of energy to be released through the rotor during braking. Imagine 330 mph with no chute- the Strange 11.50" carbon/carbon brakes have saved several drivers. Carbon 11.50" rotors provide a safe stop for the fastest cars in the world at a disc weight of only 1.88 lbs.

The 11.50" is standard issue on every Strange 10.50" and 12.00" Live Axle. The 11.50" carbon/carbon kit is optional on the Strange 9"/9.50" live axle. An 11.50" carbon/carbon kit is also available for the Chrisman Live Axle. 11.50" carbon is standard when purchasing a Strange 10.50" or 12.00" Live axle; therefore, there are only two kits listed- call for more information.

- C3000WC Fits Chrisman live axle- includes rotors, pads & calipers (hub must be modified) **(kit)**... \$2,985⁰⁰
- L4050WC UPGRADE option available with purchase of Strange Top Loader (9"/9.50") Live Axle **(kit)**... \$2,690⁰⁰

Carbon Replacement Components

- C1790 11" OD carbon rotor **(ea)**... \$594⁰⁰
- L4050B 11.50" OD carbon rotor **(ea)**... \$1050⁰⁰
- L4050H Rear Carbon Pad **(ea)**... \$125⁰⁰
- C1780 10" OD front carbon rotor **(ea)**... \$795⁰⁰
- B1250P Carbon front brake pad **(ea)**... \$105⁰⁰
- B5002 Rear directional caliper (Pass. side) **(ea)**... \$159⁰⁰
- B5004 Rear directional caliper (driver side) **(ea)**... \$159⁰⁰
- B5006 Rear Ultra caliper (passenger side) **(ea)**... \$385⁰⁰
- B5008 Rear Ultra caliper (driver side) **(ea)**... \$385⁰⁰
- L4050S .024" thick titanium heat shield **(ea)**... \$12.65
- L4050T .060" thick stainless heat shield **(ea)**... \$8.50
